

Athlete's Program:

Let me first introduce [Nutritional Diversity](#), a cutting-edge diet system developed over the last decade. This system uses alternative agricultures and wild foods exclusively in a highly diverse full-spectrum minimum of [60 different species of nutritional elements \(read more extensively\)](#).

We have a training element too. Our trainers outperform many and certainly turn heads on the field and that is mostly because of the diet system I mention above. It is also because of the unique combined experience, and push of our team; many feathers of the same bird, creatures of the utmost dedication and highest levels of performance. We are guaranteed to bring new performance markers and these come most clearly to already top-performing athletes and naturally, this is who we feel are deserving of this next-level system. See some of the last levels and friends who experienced them [here](#). These retreats have been running off and on in Costa Rica and Panama for the past 6 years.

This February - May 2023 we are running a special incentive to really make a bang of groundbreaking into Medellin, Colombia where we have mapped out the ultimate level-up incorporating this invigorating place's best therapies, treatments, and farmers. Our performance team has grown, and we feel proud to be pulling the trigger with this truly amazing diet & training combination that will no doubt enhance performance in all cases and categories!

We are marketing to pro-team and athletic offices to let them (you) know about this exciting health and [athletic performance enhancement opportunity here in Medellin we call "TRUE WHEALTH."](#) Contact: U.S. (505) 353-6914, Panama (w) Whatsapp (507) 6666-1039, [nutritionalretreat.com](http://nutritionalretreat.com)

These claims may sound lofty. Who is benched, injured, or off-season? Send a junior teammate to report back on the authenticity of this all-natural performance increase we speak so confidently about. This could be the leg-up you and your teammates need. We are marking our preferred team and fighter choices first. We have a great penthouse in one of the nicest areas in Medellin, as well as many other resources. We know this city well and we are sure that your scout will report back they had the time of their life, with excellent teammates (us) that are really going to make the difference they are talking about in players and athletes.
